

FUTURE OF FOOD

an exploration of the global food system

FUTURE OF FOOD

an exploration of the global food system

Identified actions:

1. Adopt integrative approach to tackle the 'big six':
 1. Strengthen access to farm inputs
 2. Develop infrastructure (including transport)
 3. Disseminate knowledge and good agricultural practices
 4. Improve access to finance
 5. Facilitate market access
 6. Solve the land tenure issue
2. Develop smallholder enabler index ranking governments
3. Mobilize industry & public sector to advocate for more effective regulation
4. Include BRIC companies in global sustainable business forums.
5. Waste reduction buddy system. Targeted multi-stakeholder approach to tackle food chain losses
